Adding a Language File To DSE Configuration Suite PC Software

After obtaining the Language File from DSE Website www.deepseapl.com or by other means, it is added to the Configuration Suite Software as follows.

- Ensure DSE Configuration Suite PC Software is already installed on your PC.
- Ensure DSE Configuration Suite PC Software is not already running.
- Click the Windows™ Start Button .
- Select **Documents**.
- Double-click **Deep Sea Electronics PLC**.
- Double-click **Language Files**.
- Copy the language file into this folder.
- Start DSE Configuration Suite PC Software.
- Select **Tools** and then select **Languages**.
- Select the language you require.
- Close, then reopen the DSE Configuration Suite to use it in the newly selected language/
